

SEGUN ADETAYO

Global Product Marketing Lead · AI, Data & Cloud-Native Platforms · Microsoft

Seattle, WA · seguna.adetayo@outlook.com · (603) 276-6821 · linkedin.com/in/segunadetayo

Product marketing leader who has built both sides of platform GTM at scale: supply programs that activate ISVs and SIs to build on a platform, and demand programs that drive developers and enterprise buyers to adopt the solutions they create. Background spans AI infrastructure platforms and a decade marketing complex regulated products to institutional buyers — the same discipline that makes AI trust and evaluation frameworks legible to enterprise risk and compliance reviewers.

EXPERIENCE

Microsoft

3 yrs · Progressive Experience · Jul 2023 – Present

Global Product Marketing Lead — AI & Cloud-Native Platforms

Jul 2025 – Present

- Own product positioning, AI evaluation frameworks, and acceptance criteria for AI and agentic workloads across enterprise & developer segments spanning Core AI, Data, and Cloud-Native platforms; formalized quality, accuracy, drift, and monitoring standards adopted by 6+ internal teams as a reusable pattern beyond Copilot.
- Rewrote field messaging from capability-first to defensibility-first — built a one-page evaluation-summary artifact sales teams attach directly to compliance review packets, shifting stalled AI pilots past the risk & compliance gate.
- Drive cross-functional alignment across product, engineering, field, legal, and partners without direct authority on a unified roadmap for trustworthy, auditable AI.

Product Marketing Lead — Cloud Natives & AI on Azure (AKS)

Dec 2024 – Jul 2025

- Owned AKS GTM and rebuilt a degrading partner motion: launched the AKS Partner Showcase Series, securing 4 strategic partners into co-sell motions, and founded the first AKS Partner Forum, attracting 400+ partners with C-level speakers.
- Re-engaged 50+ disengaged OSS MVPs at MVP Summit with AKS-specific positioning addressing their stated friction points, rebuilding community trust and advocacy beyond Microsoft-owned channels.
- Positioned AKS as the platform for agentic AI workloads — containerized inferencing, secure model deployment, intelligent orchestration — giving partners and field teams a coherent, differentiated pitch.

Product Marketing Lead — Digital Natives & Startups on Azure

Jul 2024 – Dec 2024

- Co-led Microsoft Learn's GitHub Copilot × Azure Hackathon end-to-end — owned the AI app templates, developer narrative, and cross-surface campaign that reached 635K+ developers across Devpost, MS Reactor, and Learn Live, with 149% week-over-week registrant growth, contributing to \$320M+ in qualified pipeline.
- Built the M365 Copilot adoption segmentation model from EAP and GA telemetry, surfacing a \$100M+ expansion opportunity in the existing install base and defining Time-to-Value benchmarks later adopted as standard KPIs across 6 product and partner teams.

Product Marketing Manager — Azure Data & AI

Jul 2023 – Jul 2024

- Built the customer evidence pipeline from zero across 100+ engagements, cutting TEI (Total Economic Impact) sourcing time by 90% and delivering the World Bank flagship customer story at Microsoft Ignite; contributed to scaling Azure Arc-Enabled SQL Server to a \$10Bn product business.
- Developed persona-specific messaging architecture for Azure Arc-Enabled SQL Server across three buyer segments — database administrators, IT directors, and C-suite infrastructure owners — translating one technical capability into three distinct value narratives.
- Synthesized Voice of Customer and Voice of Field from 100+ engagements into prioritized insights that directly fed engineering priorities and C-suite GTM decisions; formally documented AI output quality standards and monitoring requirements for M365 Copilot.

Servier

Sept 2020 – Aug 2021

Product Marketing Lead

- Led digital GTM for institutional healthcare partners — designed education and engagement programs that materially increased category adoption and expanded reach to underserved patient populations.
- Coordinated medical, commercial, and regulatory stakeholders through launch priorities in a compliance-driven ecosystem.

Bayer · Nigeria

Mar 2019 – Aug 2020

Country Product Marketing Lead — Ophthalmology & Cardiology

- Led the Eylea (aflibercept) launch in a regulated market with no existing category behavior — built the launch plan and messaging in parallel with mandatory medical/legal/regulatory review, achieving 300%+ of the 6-month adoption projection and scaling to 7-figure revenue within 12 months. Owned the full product lifecycle.

Novartis · Nigeria

Nov 2016 – Mar 2019

Product Marketing Manager — Specialty

- Grew the Ophthalmology franchise 35% YoY with 60%+ conversion rate through data-driven segmentation and structured competitive benchmarking. #1 Medical Representative in Nigeria (243% vs. budget, Nov 2018); #2 across English West Africa, Specialty Franchise, Q4 2018 (129% of budget).

EDUCATION & CREDENTIALS

Birchwood University	MS, Data Science	May 2026 – Apr 2027
Illinois Institute of Technology	PG Diploma, Generative AI & AI	
Tuck School of Business at Dartmouth	MBA	Aug 2021 – Jun 2023
Olabisi Onabanjo University	Bachelor of Science	2013

Certifications: PMP · Microsoft Azure Fundamentals (AZ-900) · Azure AI Fundamentals (AI-900)

AI Tools (Active Use): Claude Code · GitHub Copilot · OpenAI Codex · Azure AI Foundry · Microsoft Copilot Studio

CORE COMPETENCIES

AI Evaluation & Trust GTM:	Evaluation frameworks, acceptance criteria, auditability, compliance-ready sales artifacts
Ecosystem & Platform GTM:	Supply and demand side activation, network effects, marketplace positioning, partner value chains, distribution strategy
Partner & ISV Enablement:	Better-together solutions, ISV onboarding, SI enablement, co-sell motions, GTM playbooks, solution briefs, battlecards
Developer & Startup Marketing:	Developer-facing GTM, startup founder audiences, community activation, technical storytelling, DevRel collaboration
Positioning & Competitive Intel:	Platform differentiation, competitive frameworks, analyst relations, adoption benchmarking, investment insights
Cross-Functional Leadership:	Product, Partnerships, Partner Marketing, Sales, DevRel, Comms alignment; influence without authority at global scale
